To Whom It May Concern:

Please accept this letter in recommendation of Quinn Cook for scholarship consideration. Quinn is a current Canadian ISD employee serving as a technician in the CISD Technology Department. Before hiring Quinn, I served as his high school principal from August 2016 through May 2019.

In his role with our school system, Quinn travels around the district taking care of technology work orders. Although fresh out of high school when we hired him in the summer of 2020, Quinn quickly made himself invaluable through his work ethic, technical proficiency, and willingness to do whatever is needed with a great attitude. He always has a smile on his face as he hustles from one task to the next, solving problems and getting our teachers and support staff back online and back on track. Having observed Quinn as a student at CHS, I knew he had the intelligence and technology background to handle the job responsibilities of his position, but I have also been impressed with his maturity and professionalism as he has grown into his role.

I am proud of the path Quinn has taken to get to this point. He worked full-time for CISD while also taking online community college classes to get many of his basic credit requirements out of the way and is now poised to start university coursework in his chosen field. I am confident Quinn has the necessary skills, intelligence, and character traits to be successful as a full-time college student.

Quinn's choice to stay home and work full-time while accumulating college credits make good financial sense and have allowed him to purchase a car and save money for his next step. His actions and decisions demonstrate his worthiness for scholarship consideration. Quinn has a huge upside in terms of drive, intelligence, and potential and, as such, I strongly urge you to consider helping him achieve his dream of a college education.

Sincerely,

Lynn Pulliam, Ed.D.  
Superintendent
